

ACKNOWLEDGMENTS

A number of organizations and individuals are thanked for their assistance with the workshop. The workshop was organized by Bill Price of Natural Resources Canada, Velma Sterenberg of Indian and Northern Affairs Canada and Arlene Kyle of Government of Yukon, Department of Energy, Mines & Resources. Velma Sterenberg (Indian and Northern Affairs Canada) expertly handled most of the logistical issues associated with the workshop, ably assisted by Arlene Kyle (Government of Yukon, Department of Energy, Mines & Resources). Velma also organized the opening reception, all the lunches, the banquet and the field trips.

Kevin O'Reilly (Independent Environmental Monitoring Agency for the Ekati Diamond Mine) assisted in organizing the entertainment at the banquet. Gilles Tremblay and Charlene Hogan (MEND) were responsible for much of the advertising. The Yukon Chamber of Mines handled pre-workshop registration. Arlene Kyle (Government of Yukon, Department of Energy, Mines & Resources), Erika Nyssonen (Northwest Territories Environment and Natural Resources) and the Northwest Territories Mine Heritage Society handled registration at the workshop.

Thanks to the BHP Billiton for donation of the "A Piece of History – from Ekati" plaque presented to Karen Pelletier of the Government of Yukon, Department of Energy, Mines & Resources for her work in initiating this workshop and organization of the first four Northern Latitudes Mining Reclamation Workshops. Thanks to the Debeers Snap Lake Mine for the donation of a painting by James Wedzin.

Bill Price (Natural Resources Canada) organized the short course, technical paper presentations and production of the CD. Maritz Rykaart and Daryl Hockley (SRK Canada Inc) gave the short course on Soil Covers in the North. Room rental was provided by Indian and Northern Affairs Canada. Bill Price (Natural Resources Canada), Velma Sterenberg (Indian and Northern Affairs Canada), Arlene Kyle (Government of Yukon, Department of Energy, Mines & Resources) and Helen Butler (BHP Billiton Diamonds Inc. EKATI Diamond Mine) chaired portions of the workshop. Kevin O'Reilly (Independent Environmental Monitoring Agency for the Ekati Diamond Mine) was responsible for all the successes in the audiovisual department.

Most importantly, thanks to the Snap Lake, Giant and Con Mines who generously hosted tours of their mine sites and to the speakers, who volunteered their time and shared their knowledge and experiences. Special thanks to the Contaminated Sites Program of Indian and Northern Affairs Canada for providing speakers for an entire session. And, thanks to the audience who contributed to the enlightening discussion that followed each presentation.
