MAR 25 1969

Mr. W. E. Stephens
Chief, Buildings & Grounds Branch
Repairs and Utilities Division
Military Construction
Office of the Chief of Engineers
Department of the Army
Washington, D. C. 20315

Dear Mr. Stephens:

The Federal Committee on Pest Control has reviewed the proposal submitted by you on February 11, 1969, involving aerial application of herbicides for brush control along the Haines-Fairbanks POL pipeline.

The Committee did not object to the use of Picloram and 2,4-D with the Norbak thickener, in view of unsatisfactory results from 2,4-D and 2,4,5-T on spruce on the right-of-way. We noted also that the spraying would be limited to within 100 feet of streams, lakes or other bodies of water and would not be conducted if the wind were stronger than 5 miles per hour.

Sincerely yours,

R. C. Anderson, D. V. M.
Chairman
Federal Committee On Pest Control

cc: Col. Alunan
Mr. Rutton
