Dear Sir:

Thanks kindly for your letter of November 5th, 1963, with attachments concerning the proposed project providing for control of brush and weeds along that portion of the Haines-Fairbanks pipeline right-of-way lying within Canadian borders.

The material received has been forwarded to our local Federal Fisheries Office for their consideration, and we will go along with their suggestions on the matter.

My delay in replying to your letter is regretted, and there is a possibility of a further delay as the local fisheries representative is absent from the Territory on holidays.

Kindest personal regards.

Sincerely,

J. B. Fitzgerald,
Director of Game.

JBF/jn
