Dear Sir:

Due to the Vietnam situation we are unable to procure 2-4,D, 2-4.5,T  
Estron Brush Killer Herbicide for brush control on the Haines-Fairbanks  
Pipeline Right-of-Way and Pump Stations. In lieu of the above herbicide  
we have substituted for use in Alaska, Fenuron Weed and Brush Killer;  
Active Ingredient: 25% Fenuron (3-Phenyl-1, 1-Dimethylurea) and 75%  
Inert Ingredient; and Tordon 101 Mixture, Brush Killer, Active Ingredi-  
ents: 10.2% of 4-Amino-3,5,6 Trichloropicolinic Acid, 39.6% of 2,4-Di-  
chlorophenoxy-acetic Acid, and 50.2% Inert Ingredient.

It is requested that permission be granted for the use of the above herb-  
icides on the Haines-Fairbanks Pipeline Right-of-Way and Pump Stations  
within the Yukon Territory.

Providing permission is granted we are planning brush control work early  
this coming summer.

Sincerely yours,

RAYMOND P. RUCANI  
LTC, OMC  
Chief, PDO
