Re: Survey of Klukshu Indian Reserve area.

The enclosed sketch of this Reserve has been submitted by the Northern Affairs and National Resources Department for approval insofar as the access road to the Roman Catholic Mission site is concerned.

We have written to this Department as per copy of letter attached. There is no question that access must be provided, and the location seems to be satisfactory, but we would like you to give the matter some consideration, and then confer with the surveyor when he arrives.
