PARLIAM
VICTORIA, B.C.

Dear Mr. Fry:

In reply to your letter, reference 0146725 #7 and 0146717, of 4 October, 1977, to Mr. Rutherford, we find that this problem of right-of-way easements for the Haines-Nairn pipeline has been under consideration by the Department of External Affairs with the Canadian desk of the Secretary of State of the United States Government.

I would be grateful therefore, if you would arrange to get in touch with Department of External Affairs so that you may resolve any questions in regard to the control of these right-of-way easements. The name and address of this External Affairs officer is:

Mr. R.G. Blackburn,
Deputy Director of Commodity and
Energy Policy Division,
Department of External Affairs,
125 Sussex Drive,
Ottawa, Ontario.

I believe that this will enable you to obtain the information you require on the present status of these right-of-way easements.

Yours truly,
R. H. [Signature]
