

MR. Coyne/74959/Lms

DEAR

18 March 1966

SUBJECT: AUL Equipment Available for Transfer

TO: The Division Engineer  
North Pacific Division  
Corps of Engineers, U. S. Army  
Portland, Oregon

1. Transmitted herewith is a list of excess items of AUL value, pipes and pipe reported available for transfer from French Morocco. It may be possible that some of these items would be required in connection with the Kaiser-Frazer's Pipeline. These items are reported to be immediately available, and the current lead time under new procurement of some of the items would be anywhere from three (3) to six (6) months after placement of the order.

2. The items listed will be available for transfer on the basis of fair value and discounts applied to the sum of the prices above, which are COMUSMAG's acquisition costs, plus 30 percent for handling costs and shipping charges to French Morocco. Handling and shipping costs from French Morocco to destination will also be paid by the recipient.

3. It is suggested that this list be reviewed to determine whether any of the items can be used in connection with the Kaiser-Frazer's Pipeline.

4. The North Pacific Division Engineer is authorized to deal direct with the Mediterranean Division Engineer, AFM SO, USAF, c/o Postmaster, New York, New York, or the West Atlantic District Engineer, AFM SO, USAF, c/o Postmaster, New York, New York.

BY COMMAND OF MAJOR GENERAL STERGIS:
