DEPARTMENT OF THE ARMY
OFFICE OF THE CHIEF OF ENGINEERS
WASHINGTON

TO BE OPENED BY THE
ENGINEER

1 September 1950

SUBJECT: POL Pipeline, Coast to Fairbanks, Alaska.

**TO: Division Engineer
North Pacific Division
Portland, Oregon**

AIR MAIL

1. Furnished herewith are copies of correspondence regarding permission of the Canadian Government for survey of the proposed route for the subject pipeline, which lies partly within the boundaries of Canada.

2. Note No. 277 dated 10 August 1950 from the Department of External Affairs, Canada, contains the necessary permission for the survey. It will be noted that, following the surveys, any proposal to obtain a right-of-way or construct the pipeline through Canadian territory, will require further request.

3. This office will initiate action to secure any necessary right-of-way for construction through Canada, at such time as the route to be followed is decided upon.

BY ORDER OF THE CHIEF OF ENGINEERS:

Ottawa, August 8, 1950.

Honourable Byron I. Johnson, M.B.E.,
Premier of British Columbia,
Victoria, B.C.

My dear Premier:

This will confirm our telephone conversation of August 6th in connection with a request from the Canadian Government for permission to survey a route for a pipe line from Haines, Alaska, to Fairbanks, Alaska.

It is understood that you have no objection to the required survey being carried out on that part of the route in the Province of British Columbia on the understanding that further permission will be sought before construction of a pipe line is undertaken.

On this basis I am informing the Secretary of State for External Affairs that this Department has no objection to the survey being conducted.

Yours sincerely,

Robert H. Winters
