POPULATION

Population Change (June 30th), by Community, 2022 to 2023

Population (June 30th), by Community*, 2013 to 2023

HIGHLIGHTS

On June 30, 2023, a total of 45,187 people were living in Yukon. Between June 30, 2022 and June 30, 2023, Yukon's population increased by 1,192, or 2.7%.

Between June 30, 2013 and June 30, 2023, Yukon's population increased by 8,616, or 23.6%. This represents a compound annual growth rate of 2.1% over the last ten years.

Looking at 2013 through 2023 (June 30th each year), Yukon's population has grown every year. However, this growth has not occurred evenly — the annual growth rate varied from a low of 0.8% in 2013 to a high of 3.0% in 2017.

Between June 30, 2022 and June 30, 2023, the highest percentage growth in population was in Mendenhall (7.1%, or 10 people), while the largest percentage decline was in Pelly Crossing (2.9%, or 11 people). The population of the Whitehorse area (includes Marsh Lake), increased 3.1% over the same period.

Comparing June 30, 2023 to June 30, 2013, the population of the Whitehorse area increased by 7,524, or 26.6%; Dawson City increased by 349, or 17.4%; and the population of Watson Lake increased by 53, or 3.6%.

The community with the largest percentage increase in population between June 30, 2013 and June 30, 2023 was Tagish* at 53.5% (137 persons), followed by Whitehorse at 26.6% (7,524 persons).

*Data for Johnson's Crossing and Mendenhall are not available prior to 2019.

See pages 17-23 for detailed data.

HIGHLIGHTS

Comparing June 30, 2023 to June 30, 2013, Yukon's population by 15-year age group changed as follows:

- 0 to 14 years = 1,200 people, or 19.8%;
- 15 to 29 years = 733 people, or 9.9%;
- 30 to 44 years = 3,525 people, or 43.9%;
- 45 to 59 years = -744 people, or -8.1%;
- 60 to 74 years = 2,771 people, or 58.3%; and
- 75 years and over = 1,131 people, or 99.2%.

On June 30, 2023, Yukon's population consisted of 22,847 males (50.6%) and 22,340 females (49.4%). Ten years earlier, on June 30, 2013, there were 18,715 males (51.2%) and 17,856 females (48.8%).

In 2023, there were 373 births* compared to 412 in 2022. The highest number of births recorded in the last ten years was in 2021 (431).

In 2023, 296 deaths* were recorded, an increase of 1 from the previous year. The number of deaths in the past 10 years has fluctuated from a low of 190 in 2014 to a high of 324 in 2021.

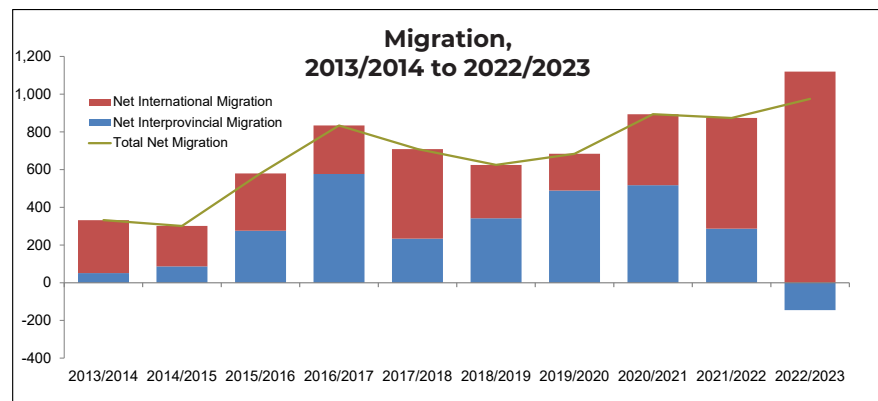

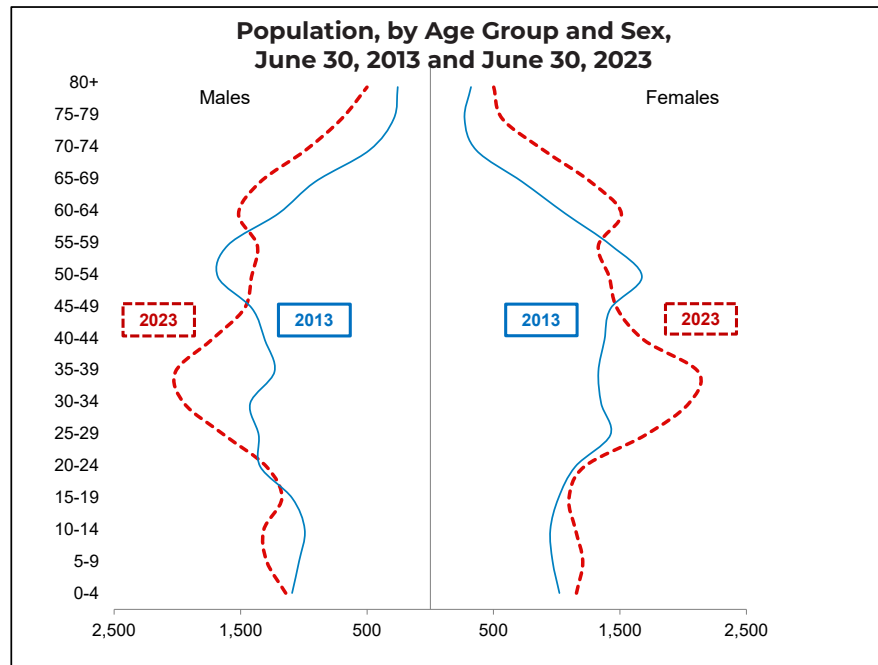

The average number of births per year from 2014 to 2023 was 403; the average number of deaths was 248.

* Birth and death data represent events occurring within Yukon to Yukon residents only.

In 2022/2023, there was a net gain of 975 people from migration compared to a net gain of 874 people in 2021/2022.

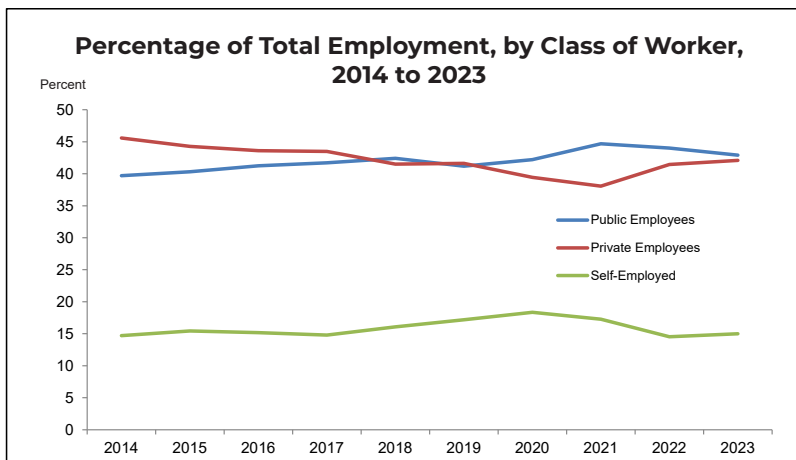

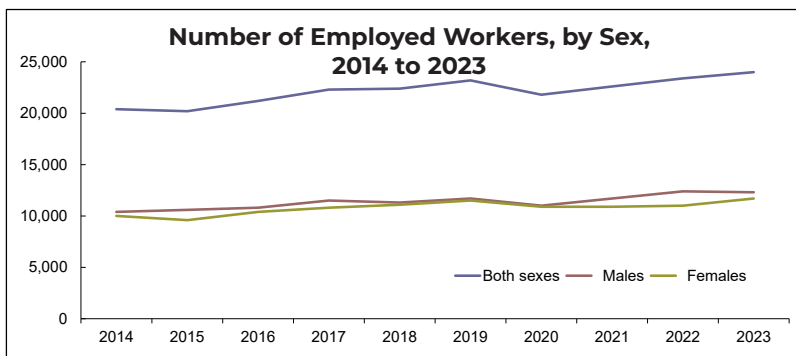

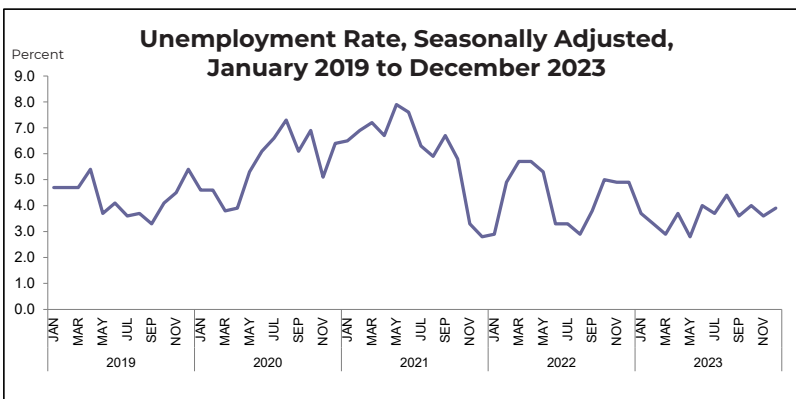

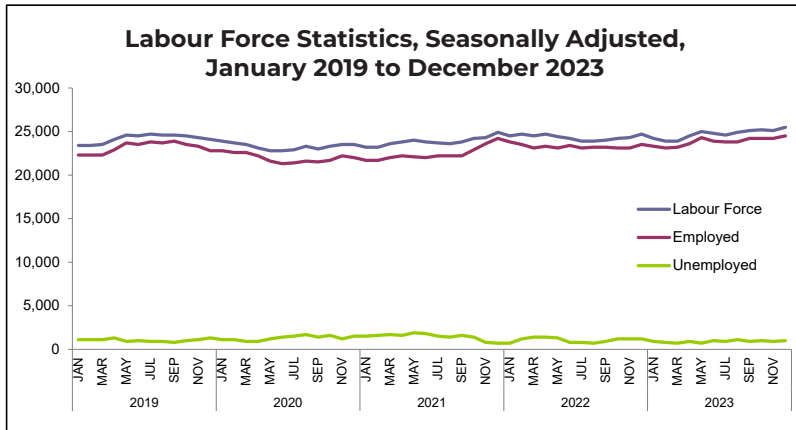

Net migration from interprovincial and international movements to and from Yukon has varied from a net gain of 301 people in 2013/2014 to a net gain of 975 in 2022/2023.

- Beginning in June 2019, community-level estimates include populations within the municipalities and surrounding area up to halfway to the next municipal boundary along the relevant highway or road, with the exceptions of: Braeburn, Champagne, Swift River and Whitehorse Area. Prior to June 2019, population of unorganized areas were assigned to the nearest community.
- Prior to 2019 Johnson's Crossing populations were included in Teslin. In 2019 the population estimate methodology was changed to assign location by residential address. This allowed for the creation of Johnson's Crossing as a community and led to a decrease in the Teslin estimates.
- Whitehorse Area includes Ibex Valley; Marsh Lake; Mt. Lorne; Outside City Limits (North); Outside City Limits (South); Whitehorse - City; and small population areas in proximity to Whitehorse - City but outside of communities.
- Prior to June 2019, Other included communities such as Braeburn, Alaska Highway, Champagne, Jake's Corner, Keno, McCabe Creek, Stewart Crossing, Swift River, Rancheria, Elsa, and all other unspecified communities. Beginning in June 2019, Other includes Braeburn, Champagne, Swift River, Keno and Stewart Crossing.

1. Quarterly population estimates for this table: Q1 = January 1; Q2 = April 1; Q3 = July 1; and Q4 = October 1. Annual population figures represent estimates as of July 1st.

2. The number of interprovincial migrants is final up to June 2022, updated from July 2022 to March 2023 and preliminary from April 2023. From July 1976 to June 2022, estimates are based on Canada Revenue Agency (CRA) tax data. From July 2022, estimates are based on Canada child benefit data from CRA.

3. The number of international immigrants is final up to December 2022, updated from January to March 2023 and preliminary from April 2023. The number of emigrants and returning emigrants is final up to June 2021, updated from July 2021 to June 2022 and preliminary from July 2022. The number of net temporary emigrants is final up to June 2016. The net non-permanent residents is final up to June 2021, updated from July 2021 to March 2023 and preliminary from April 2023.

4. Annual Total Growth includes residual deviation from 2013/2014 to 2015/2016.

Note: Annual figures, with the exception of population, represent the period of July 1st to June 30th; i.e., 2022/2023 figures cover the period from July 1, 2022 to June 30, 2023. Population estimates are final intercensal from 2014 to 2017, final postcensal for 2018 to 2020, updated postcensal for 2022 and 2023.

- Interprovincial migration represents movements from one province or territory to another, involving a change in usual place of residence. A person who takes up residence in another province or territory is an out-migrant with reference to the province or territory of origin, and an in-migrant with reference to the province or territory of destination. Net interprovincial migration is the difference between the number of in-migrants and the number of out-migrants. The number of interprovincial migrants is final up to June 2022, updated from July 2022 to March 2023 and preliminary from April 2023. From July 1976 to June 2022, estimates are based on Canada Revenue Agency (CRA) tax data. From July 2022, estimates are based on Canada child benefit data from CRA.
- The number of international immigrants is final up to December 2022, updated from January to March 2023 and preliminary from April 2023. The number of emigrants and returning emigrants is final up to June 2021, updated from July 2021 to June 2022 and preliminary from July 2022. The number of net temporary emigrants is final up to June 2016. The net non-permanent residents is final up to June 2021, updated from July 2021 to March 2023 and preliminary from April 2023.
- Age on July 1st.
- The number of immigrants is final up to 2021/2022 and preliminary for 2022/2023.
- The number of emigrants is final up to 2020/2021, updated for 2021/2022 and preliminary for 2022/2023.
- The number of returning emigrants is final up to 2020/2021, updated for 2021/2022 and preliminary for 2022/2023.
- The number of net temporary emigrants is final up to 2015/2016.
- A non-permanent resident refers to a person from another country with a usual place of residence in Canada and who has a work or study permit or who has claimed refugee status (asylum claimant). Family members living with work or study permit holders are also included unless these family members are already Canadian citizens, landed immigrants (permanent residents), or non-permanent residents themselves. This estimate of the number of non-permanent residents in Canada differs from the number of asylum claimants and temporary residents from the Department of Immigration Refugees and Citizenship Canada (IRCC). The net non-permanent residents is final up to 2020/2021, updated for 2021/2022 and preliminary for 2022/2023.
- Age -1 year represents persons born after July 1st and not included in the age group of 0 to 4 years.

Note: Annual figures represent the period of July 1st to June 30th; i.e., 2022/2023 figures cover the period from July 1, 2022 to June 30, 2023.

[†] Use caution when analysing data due to high variance or a small number of rental units within the category.

1. The Yukon Rent Survey includes buildings with three or more rental units. Buildings with less than three rental units (i.e. houses, suites and duplexes) are not included in this table.

2. Upper Whitehorse includes: Granger, Arkell, Copper Ridge, Ingram, Logan, Hillcrest, Takhini, Valleyview and Lobird/South Access. This aggregation has been made due to small numbers of surveyed buildings in these subdivisions.

3. Low-rise units are in buildings with five or more units.

4. Store-top units are residential units in buildings which primarily contain commercial space.

† Use caution when analysing data due to high variance or a small number of rental units within the category.

1. Duplex includes single detached houses with a legal rental suite.

2. Apartment Building are buildings with five or more units.

3. Store-top units are residential units in buildings which primarily contain commercial space.

4. Numbers may not add up to the total due to rounding and vacancy rates may have been affected by small number of units.

1. The exploration work phase is defined as the search for, discovery, and first delimitation of a previously unknown mineral deposit or the re-evaluation of a sub-marginal or neglected mineral deposit in order to enhance its potential economic interest based on delimited tonnage, grade, and other characteristics. The phase is completed when a deposit has sufficient indicated mineral resources accompanied by a positive scoping study (preliminary economic assessment that justifies additional, more detailed, and costly deposit appraisal work).
2. The deposit appraisal work phase is defined as the steps undertaken to bring a delimited deposit, by definition drilling, comprehensive tests, and planning, to the stage of detailed knowledge required for a complete feasibility study that will justify and support a production decision on the large investment required.
3. Expenses that support work on and off mine sites; they are allocated to engineering, economics, and pre- or production feasibility studies, the environment, land access and field work. They also include associated general expenses.

Note: Exploration and deposit appraisal activities include only the search for and appraisal of deposits and do not include work for extensions of known reserves.

Definitions:

BANKRUPTCY:

The state of a consumer or a business that has made an assignment in bankruptcy or against whom a bankruptcy order has been made.

A **consumer bankruptcy** applies to an individual with more than 50% of total liabilities related to consumer goods and services.

A **business bankruptcy** applies to any commercial entity or organization other than an individual, or an individual who has incurred 50% or more of total liabilities as a result of operating a business.

PROPOSAL:

An offer to creditors to settle debts under conditions other than the existing terms. A proposal is a formal agreement under the *Bankruptcy and Insolvency Act*.
