

Sample ID	UTMZone	Easting	Northing	Elevation	Type	Target	Date	Comments	Sampler
D003551	8	482522	6861779	954	Rock	Catch	16-Jun-22	Grab sample from float boulder on hillside. Similar other boulders nearby	Nigel Bocking
D003552	8	482907	6861801	1065	Rock	Catch	16-Jun-22	Comp grab of vein/dyke/contact material from tiny subcrop	Nigel Bocking
D003553	8	482674	6861560	965	Rock	Catch	16-Jun-22	Mini pit sample in orange soil near another anomalous rock sample	Nigel Bocking
D003554	8	482634	6861559	951	Rock	Catch	16-Jun-22	Comp grab from scree in rusty soil patch	Nigel Bocking
D003555	8	483312	6862191	1071	Rock	Catch	17-Jun-22	Como grab from altered face	Nigel Bocking
D003556	8	482682	6860874	840	Rock	Catch	18-Jun-22	Composite grab across a 2m width of quartz carbonate breccia area	Nigel Bocking

D003557	8	482996	6861006	1009	Rock	Catch	18-Jun-22	Grab sample of pyritic basalt, old small hand pit no record of sample at this location	Nigel Bocking
D003558	8	482811	6860692	874	Rock	Catch	18-Jun-22	Composite of vein pieces of large carb vein	Nigel Bocking
D003559	8	482763	6859763	752	Rock	Catch	18-Jun-22	Select composite grab of mineralized float over about half meter shallow dig in hillside	Nigel Bocking
D003560	8	482765	6859769	755	Rock	Catch	18-Jun-22	Grab sample of mineralized material from outcrop	Nigel Bocking
D003561	8	483055	6859280	795	Rock	Catch	21-Jun-22	Comp grab of quartz carb breccia on slope	Nigel Bocking
D003562	8	482837	6860294	847	Rock	Catch	21-Jun-22	Composite of intensely carbonate altered section of outcrop	Nigel Bocking
D003563	8	482805	6860278	831	Rock	Catch	21-Jun-22	Grab sample of mineralized and altered basalt	Nigel Bocking

D003564	8	482620	6863326	820	Rock	Catch	22-Jun-22	Chip sample across portion of gossanous section of outcrop	Nigel Bocking
D003565	8	482421	6861701	898	Rock	Catch	22-Jun-22	Grab same from subcrop	Nigel Bocking
D003566	8	482465	6861685	918	Rock	Catch	22-Jun-22	Sample from handpit of gossanois material with tqc and limited cu minerals	Nigel Bocking
D003567	8	482464	6861681	916	Rock	Catch	22-Jun-22	Composite of copper mineralization in hand pit	Nigel Bocking
D003568	8	482448	6861628	899	Rock	Catch	22-Jun-22	Grab sample of subcrop with Cu mineralization	Nigel Bocking
D003569	8	482132	6862098	804	Rock	Catch	23-Jun-22	Grab sample of basalt float with semi massive pyrite	Nigel Bocking
D003570	8	482729	6861909	1005	Rock	Catch	23-Jun-22	Grab of cu mineralization in trench	Nigel Bocking
D003571	8	482642	6861729	992	Rock	Catch	23-Jun-22	Grab sample of mineralized fractured bedrock at helipad	Nigel Bocking

D003572	8	482554	6861570	932	Rock	Catch	23-Jun-22	Chip sample of the weird brick red, white and yellow orange dirt that ran 52 ppm Au, check sample	Nigel Bocking
D003573	8	482551	6861571	933	Rock	Catch	23-Jun-22	Chip sample across rock below high grade dirt	Nigel Bocking
D003574	8	482921	6860217	805	Rock	Catch	23-Jun-22	Grab sample of Cu mineralization on outcrop	Nigel Bocking
D003575	8	482597	6861695	967	Rock	Catch	24-Jun-22	Hyper spec high grade sample	Nigel Bocking
D003576	8	482910	6861794	1065	Rock	Catch	24-Jun-22	Grab sample from hand pit dug approx 10m from old trench	Nigel Bocking
D003577	8	482911	6861884	1074	Rock	Catch	24-Jun-22	Comp sample of mineralized material	Nigel Bocking
D003578	8	482908	6861877	1071	Rock	Catch	24-Jun-22	Small hand pit dug on surface malachite	Nigel Bocking
D003579	8	482913	6861875	1075	Rock	Catch	24-Jun-22	Composite sample from pit dug on surface malachite	Nigel Bocking

D003580	8	482769	6859767	760	Rock	Catch	25-Jun-22	Grab sample of veined material	Nigel Bocking
D003581	8	482876	6859866	806	Rock	Catch	25-Jun-22	Grab sample of vein float on hillside	Nigel Bocking
D003582	8	482927	6859963	837	Rock	Catch	25-Jun-22	Grab of highly silicified rock with disseminated sulphides	Nigel Bocking
V764507	8	482609	6861685	960	Rock	Catch	24-Jun-22	Minor malachite and azurite staining on moderately oxidized basalt subcrop. Trace gypsum.	Adam Coulter
V764508	8	482546	6861564	914	Rock	Catch	24-Jun-22	Moderately oxidized basalt float next to trench 7 with large 1 cm chalcopyrite - malachite bleb.	Adam Coulter
V764509	8	482546	6861564	914	Rock	Catch	24-Jun-22	Weakly oxidized basalt outcrop coated in malachite and abundant gypsum.	Adam Coulter

V764510	8	482592	6861539	923	Rock	Catch	24-Jun-22	Malachite stained and weakly oxidized black basalt subcrop from prior trench that appears unsampled. Non magnetic.	Adam Coulter
V764511	8	482592	6861539	923	Rock	Catch	24-Jun-22	Malachite stained and weakly oxidized black basalt subcrop from prior trench that appears unsampled. Non magnetic.	Adam Coulter
V764512	8	482637	6861553	945	Rock	Catch	24-Jun-22	Weakly oxidized and moderately silicified basalt float with trace malachite staining.	Adam Coulter
V764513	8	482650	6861562	954	Rock	Catch	24-Jun-22	Moderately oxidized basalt float from small hand pit at soil site location.	Adam Coulter

V764514	8	482650	6861562	954	Rock	Catch	24-Jun-22	Weakly oxidized basalt float with trace malachite and thin 1 cm discordant quartz vein. White gypsum coating fracture surface.	Adam Coulter
V764515	8	482887	6861869	1058	Rock	Catch	24-Jun-22	Azurite and malachite stained and moderately oxidized basalt talus from across slope. Selective 'high grade' sampling of malachite stained rock. Non-magnetic.	Adam Coulter
V764516	8	482887	6861869	1058	Rock	Catch	24-Jun-22	Highly silicified basalt subcrop dug out of slope from approximately 1 foot down with 2% pyrrhotite-pyrite-chalcopyrite. Moderately magnetic.	Adam Coulter

V764517	8	482892	6861861	1056	Rock	Catch	24-Jun-22	Moderately oxidized, silicified and malachite stained basalt outcrop. Non-magnetic.	Adam Coulter
V764518	8	482874	6861865	1050	Rock	Catch	24-Jun-22	Moderate to strongly oxidized, weakly silicified black basalt outcrop with malachite staining. Non-magnetic.	Adam Coulter
V764519	8	482880	6861847	1047	Rock	Catch	24-Jun-22	Moderately oxidized black basalt float from 2' deep hand pit in very orange soil. Trace malachite and gypsum coating fracture surfaces. Non-magnetic.	Adam Coulter

V764520	8	482876	6861882	1054	Rock	Catch	24-Jun-22	Moderately oxidized and brecciated orange basalt float with trace calite from 1' deep hand pit. Non-magnetic.	Adam Coulter
V764521	8	499682	6854950	1161	Rock	Catch	25-Jun-22	Magnetic black basalt outcrop with trace 2 mm epidote veining.	Adam Coulter
V764522	8	499879	6854760	1145	Rock	Catch	25-Jun-22	Magnetic black andesite with plagioclase phenocrysts in outcrop.	Adam Coulter
V764523	8	499917	6853854	876	Rock	Catch	25-Jun-22	Black magnetic basalt outcrop with trace 2 cm carbonate veining.	Adam Coulter
V764530	8	498711	6855781	1358	Rock	Catch	25-Jun-22	Weakly brecciated and weakly magnetic green basalt with carbonate alteration within matrix.	Adam Coulter

V764537	8	482874	6861862	1046	Rock	Catch	06-Jul-22	Oxidized basalt subcrop with 3% malachite staining throughout. Variably limonitic. Trace disseminated pyrite and chalcopyrite on fresh surface.	Adam Coulter
W232927	8	482867	6861868	1048	Rock	Catch	06-Jul-22	W232927 - Subcrop. Surficially weak light brown, white oxidized, fine grained basalt. Trace light blue/green copper-oxide observed on fracture surface.	Austin Schneebeli
W232928	8	482867	6861868	1048	Rock	Catch	06-Jul-22	W232928 - Subcrop. Light brown/orange strongly oxidized fine grained basalt with moderate goethite and trace 'beer bottle' brown oxide.	Austin Schneebeli

W232929	8	482867	6861868	1048	Rock	Catch	06-Jul-22	W232929 - Subcrop. Black, fine grained basalt. Abundant crystalline, subhedral, crackled calcite veins and strong, patchy to coating of malachite>>azurite observed.	Austin Schneebeli
