A topographic map is overlaid on the left side of the cover. It features a grid of latitude and longitude lines. Contour lines are drawn in a reddish-orange color, with numerical values such as 4200, 4300, 4400, 4500, and 4600. The word 'CONTROL' is printed vertically along one of the contour lines. The map is set against a dark, textured background.

MINING and GROUNDWATER GEOPHYSICS / 1967

When the papers were received from the authors, they were reviewed by critical readers and the associate editor of the appropriate session. Most of the work in connection with the groundwater geophysics, both in the organization of the program and in the editing, was in the able hands of L.S. Collett. Special thanks are due to Pauline Moyd who acted as the focal point and coordinated the activities of the editorial staff as well as doing considerable arranging and editing. Above all we wish to thank Valerie Donnelly who performed the bulk of the work in the production editing.

Lawrence W. Morley

Ottawa, Canada,
May 1969.

Editorial Staff

Editor-in-Chief	— L.W. Morley
Assistant Editor	— Pauline Moyd
Production Editor	— Valerie Donnelly
Associate Editors, Mining Geophysics	
State of the Art	— H.O. Seigel
Geophysics as an Aid in Geological	
Mapping, and Human Resources Panel	— G.D. Garland
Base Metals	— N.R. Paterson
Radioactive Minerals	— A.F. Gregory
Ferrous Minerals	— R.A. Bosschart
Industrial Minerals	— D.E.T. Bidgood
Precious Metals	— G.D. Tikkanen
Other Minerals	— W.G. Wahl
Associate Editor, Groundwater Geophysics	— L.S. Collett
