

- LEGEND**
- One shear (not axial out)
  - One floor (not axial out)
  - Massif meta-igneous rocks
  - Metasedimentary and metapelitic rocks
  - Gabbro dykes
  - Diabase dyke
  - Calcitic sills
  - Shear zone, mainly calc-silicates
  - Shear zone, mainly carbonates
  - Shear zone, mainly quartzites
  - Narrow shear zone
  - Faults and fractures
  - Rhyolite (redbedded)
  - Plutonic meta-igneous rocks
  - Massive meta-igneous rocks
  - Metasedimentary and metapelitic rocks
  - Gabbro dykes
  - Diabase dyke
  - Calcitic sills
  - Shear zone, mainly calc-silicates
  - Shear zone, mainly carbonates
  - Shear zone, mainly quartzites
  - Narrow shear zone
  - Faults and fractures
  - Rhyolite (redbedded)
