

Approximate scale
3 miles
4.83 kilometres

Section A-B is projected onto a plane striking N 30° W and vertical

Approximate scale
6 miles
9.66 kilometres

Section C-D is projected onto a plane striking N 35° W and dipping 70° NE

Davidson Range
580 poles to foliation or bedding
Contours 1,2,4,7,10 and 11 per cent
per 1 per cent area
P - assumed fold axis

- Greenstone
- Massive quartzite
- Undifferentiated

Geology by L. H. Green, Section A-B after McTaggart (1960)

To accompany GSC Memoir 357, by L. H. Green

Geological cartography by the Geological Survey of Canada

Figure 17. Projected sections across Keno Hill (A-B) and Davidson Range (C-D), Yukon Territory.
