

LEGEND

- CENOZOIC**
- TERTIARY**
 7 Andesite, dacite, rhyolite, volcanic breccia, tuff.
- CRETACEOUS AND (?) LATER**
 6a Granite, granodiorite, diorite; 6a, gabbro;
 6b, granite porphyry
- CRETACEOUS**
- 5 Dacite, latite, rhyolite, flow breccia, tuff, andesite
- 4 Peridotite, serpentine; 4a, dunite, some undifferentiated andesite
- JURASSIC AND CRETACEOUS**
 3 Sandstone, slate, greywacke, quartzite, chert, tuff, conglomerate, argillite
- MESOZOIC**
- 2 Limestone, slate, quartzite
- PRECAMBRIAN PALAEOZOIC (?)**
 YUKON GROUP: quartz-mica schists, gneiss, slate, quartzite, crystalline limestone, greenstone, and chlorite schist (G)
- Heavily drift-covered area [Symbol]
- Crystalline limestone [Symbol]
- Esker [Symbol]
- Bedding (inclined, vertical, overturned) [Symbol]
- Schistosity (inclined, vertical) [Symbol]
- Fault [Symbol]
- Glacial striae [Symbol]
- Synclinal axis [Symbol]
- Geology by E. D. Kindle, 1946.
- Road, well travelled [Symbol]
- Trail [Symbol]
- Glacier [Symbol]
- Contour (interval 1000 feet) [Symbol]

PRELIMINARY MAP 47-15A

**DEZADEASH
 YUKON**

Scale = 1 inch to 4 miles

Surveyed by the Topographical Division.
 Cartography by the
 Drafting and Reproducing Division, 1947.
