

**GEOLOGICAL SURVEY
PAPER 77-8**

**RECONNAISSANCE ROCK GEOCHEMISTRY
OF AISHIHK LAKE, SNAG AND
STEWART RIVER MAP-AREAS IN
THE YUKON CRYSTALLINE TERRANE**

**D.J. TEMPELMAN-KLUIT
R. CURRIE**

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the smooth operation of any business and for the protection of its interests.

2. The second part of the document outlines the various methods and procedures that should be followed in the collection and recording of data. It provides detailed instructions on how to ensure the accuracy and reliability of the information gathered.

3. The third part of the document describes the different types of records that should be maintained, including financial statements, inventory records, and personnel files. It also discusses the importance of regularly reviewing and updating these records to reflect current conditions.

4. The fourth part of the document discusses the various factors that can affect the accuracy of records, such as human error, equipment malfunctions, and changes in procedures. It provides suggestions for how to minimize these risks and ensure the integrity of the data.

5. The fifth part of the document discusses the importance of having a clear and concise system of record-keeping. It emphasizes that a well-organized system is essential for the efficient management of a business and for the timely preparation of reports.

6. The sixth part of the document discusses the various methods and procedures that should be followed in the collection and recording of data. It provides detailed instructions on how to ensure the accuracy and reliability of the information gathered.

7. The seventh part of the document describes the different types of records that should be maintained, including financial statements, inventory records, and personnel files. It also discusses the importance of regularly reviewing and updating these records to reflect current conditions.

8. The eighth part of the document discusses the various factors that can affect the accuracy of records, such as human error, equipment malfunctions, and changes in procedures. It provides suggestions for how to minimize these risks and ensure the integrity of the data.

9. The ninth part of the document discusses the importance of having a clear and concise system of record-keeping. It emphasizes that a well-organized system is essential for the efficient management of a business and for the timely preparation of reports.

10. The tenth part of the document discusses the various methods and procedures that should be followed in the collection and recording of data. It provides detailed instructions on how to ensure the accuracy and reliability of the information gathered.
