

Western Copper Corporation

Project Proposal – Revision No. 2

Carmacks Copper Project

Yukon Territory

**Volume II
Supporting Appendices A - E**

February 2007

Prepared by

Western Copper Corporation

PROJECT PROPOSAL

CARMACKS COPPER PROJECT YUKON TERRITORY

Volume II – Supporting Appendices

- Appendix A Detailed Project Design Drawings
- Appendix B Western Copper Corporation Safety and Environmental Policy
- Appendix C Carmacks Copper Project Performance Standards and Design Criteria Parameters (2005)
- Appendix D EBA Engineering Consultants Carmacks Copper Mine Heap Leach Pad Liner Design Report (2005)
- Appendix D1 Report on Updated Design of the Heap Leach Pad and Events Pond (1997)*
- Appendix D2 Western Copper Heap Leach Pad Loading Plan (July 2006)*
- Appendix D3 Water Balance Update – Memorandum CCL-CC7 (February 2006)*
- Appendix D4 Williams Creek Site Hydrology Update – Memorandum CCL-CC6 (January 2006)*
- Appendix D5 Technical Design Memorandum – Solution Storage/Events Pond Sizing (January 2006)*
- Appendix D6 EBA Engineering Consultants Responses to Environmental Assessment Review Questions (re Heap) (March 2006)*

Volume II – Supporting Appendices (Cont'd)

Appendix E Beattie Consulting Ltd. Report on Leaching and Decommissioning of Samples from Carmacks Oxide Copper Project (2001)

Appendix E1 Western Copper Conceptual LEACH/SE-EW Process (June 2006)

Appendix E2 Fate of lead at the anode of the electrowinning circuit – Carmacks Copper (August 2006)

Appendix E3 Detoxification and Rinsing Testwork Report (January 2006)

Appendix E4 Memorandum – Heap Rinsing Additional Information (June 2006)

Appendix E5 Technical Memorandum – Review of Documents and Meeting Notes related to Mineralogy of Leach Residues (May 2006)

Appendix E6 Leach Residue Fine Fraction ABA Testing (September 2006)
