		Calf apparently got stu					5	
		the process, cow and calf are presently blocking traffic on Haul road. Injuries to calf						
		undetermined at this point.						
	1610	Contact CO MEISTER in Dawson City as he also received a report, advise him that I						
		would attend and deal with the situation.						
	1615	Contact c/n and obtain further details, traffic has been shut down on Haul road until the						
		animals move off or until CO JOHNSTONE attends. C/N to report back on situation						
		shortly.						
	1630	C/N contact CO JOHNSTONE and informs him that the animals are still in the area and						
		the calf appears to be badly injured. Inform c/n that I would attend as soon as possible.						
	1640	CO JOHNSTONE proceeds to location.						
	1710	Attend ALEXCO Admin office and informed that animals are in the vicinity of the						
		BK 10 Marker along Haul road.						
	1725	CO IOUNSTONE att			and as	and noint and me	oto with omnlar	a waitina

1725	CO JOHNSTONE attends Haul road access point and meets with employee waiting,
	employee advised to have traffic detour around the area as some are walking along the
	Creek below Haul road. Will maintain radio contact through LADD 1 and provide info
	on situation when animal is located.

OCCURRENCE REPORT CONTINUATION File No: MA-12-012 Page _2 of _2__

Action Taken		
Date	Time	
12-10	1735	CO JOHNSTONE locates animals along Haul road, calf is dragging itself around very
		slowly and has little to no use of front legs. Due to extent of injury calf is dispatched and
		Cow is hazed off the road, cow returned twice and was hazed with Bear Bangers, cow
		slowly moved off the road on the upside portion and remained in the trees.
		Carcass loaded into truck and CO JOHNSTONE advised c/n that Haul road could be
		used again and traffic should avoid stopping in area and if cow returns that it be hazed
		with use of vehicle horn. C/N informed that the injury to the calf were too severe for any
		type of rehabilitation.
	1750	Traffic proceeding along Haul road. C/N advised to contact CO JOHNSTONE again if the
		Cow remained in the area for a prolonged period or became aggressive towards people or
		vehicles.
	1803	Depart location and return to Mayo. Carcass not retained for consumption as it was just
		recently born. Carcass disposed of.
12-11	0830	Kill Report # 34227 is completed.
12-12	1924	E-mail request received for copy of report from Site Environmental Coordinator Vanessa
		BENWOOD, copy will be forwarded when completed.
		CONCLUDED
