Name of Interviewee(s): _____

Name of Researcher(s): _____

Location: _____

Date: _____

Study Purpose and Goals

We want to talk with you to learn more about the current social and economic conditions in Pelly Crossing and across the SFN territory, as well as those of SFN members residing in other communities. We also want to discuss how those conditions may be affected by the proposed Phase 5 / Phase 6 developments at the Minto Mine. The study findings will be included in Minto Ex's submission to the Yukon Environmental and Socio-Economic Assessment Board (YESAB) to expand mining activities and extend the life of the Minto Mine. Your contributions will greatly enhance the Application and will help guide management decisions and directions.

Why is Your Involvement Important to the Study?

We are seeking your involvement in this study because we recognize fully that your profession has provided you with a unique and informed understanding about the current social and economic conditions of SFN individuals as well as those of Pelly Crossing and the SFN territory as a whole.

Funding

This Socio-Economic Study is funded by Minto Explorations Ltd., a subsidiary of Capstone Mining Corporation.

Socio-Economic Study Team

The SFN Socio-Economic Study Team consists of the SFN Minto Community Researcher (Teri-Lee), a Minto Mine representative (Jennie), and consultants who specialize in working with First Nation communities on socio-economic and environmental projects (Deanna, Debra).

How Will the Study be Completed?

We wish to work within the Dooli process and would like to work with you to create opportunities for sharing. We would like to suggest that one semi-structured, open-ended interview, which may be conducted individually or in a small group. We would like you to tell us what method would be most convenient and comfortable for you.

We understand and appreciate the sensitivity of socio-economic information. We will undertake care to keep your knowledge confidential and secure. We encourage your full participation in this study and any of its related project activities (i.e., workshops, community meetings, and engagement programs).

At the completion of the study a *Selkirk First Nation Socio-Economic Study* summary providing an overview of the study findings will be presented at a community meeting. A written summary will also be prepared and made available at the SFN Administration Office. Additional information about the study may also be provided to the community through newsletters or through other manners agreed to with the community.

Protection of Your Contributions

Your involvement in this study is voluntary. We encourage you to review and comment on your contributions before they are used to prepare the Application.

Confidentiality

All the information shared with us will be held in confidence and used only for the YESAB Application documents.

Storage and Archiving of Socio-Economic Information and Contributions

Information and contributions gathered in this study will be securely stored. Computer files will be password protected and written files will be kept in a locked file cabinet in the Klohn Crippen Berger, Vancouver office.

At the completion of this project, summarized study materials (e.g., digital audio recordings and/or summarized notes from discussions) will be given to the SFN Archives. You may place restrictions on access to all, or parts of, your contributions for future use.
