

PROPOSED
**CARMACKS-STEWART/MINTO SPUR
TRANSMISSION PROJECT**

YUKON
ENERGY

**YESAB
EXECUTIVE COMMITTEE
PROJECT PROPOSAL**

**Submission
& Appendices**

September 2006

Submitted by:

**Yukon Energy
Corporation**

Prepared by:

TABLE OF CONTENTS

CHAPTER 1

1.0	PROJECT INTRODUCTION AND OVERVIEW	1-1
1.1	EXECUTIVE SUMMARY	1-1
1.2	PROPONENT INFORMATION	1-4
1.3	PROJECT BACKGROUND	1-5
1.4	PROJECT PURPOSE	1-6
1.5	REQUIRED AUTHORIZATIONS AND REGULATORY APPROVALS	1-7
1.6	SUBMISSION ORGANIZATION AND CONTENT	1-9

CHAPTER 2

2.0	PROJECT LOCATION.....	2-1
2.1	INTRODUCTION.....	2-1
2.2	GEOGRAPHICAL LOCATION	2-1
2.3	PROJECT COMPONENTS	2-3
2.3.1	Legal Land Description.....	2-4
2.4	LAND TENURE	2-4
2.5	TRADITIONAL TERRITORY.....	2-6
2.6	YUKON LAND USE PLANNING REGION.....	2-8
2.7	CONSISTENCY WITH OTHER PLANS	2-8
2.7.1	Current Land Use and Management Plans.....	2-8
2.7.2	Project Consistency with Other Plans.....	2-10

CHAPTER 3

3.0	ASSESSMENT APPROACH.....	3-2
3.1	OVERVIEW OF APPROACH	3-2
3.2	ROUTE SELECTION AND EVALUATION PROCESS	3-3
3.3	ASSESSMENT FRAMEWORK	3-4
3.3.1	Scoping of the Assessment:.....	3-6
3.3.2	Analysis of Effects	3-9
3.3.3	Evaluation of Significance and Describing Residual Effects.....	3-10
3.3.4	Follow-up and Monitoring.....	3-10
3.4	CUMULATIVE EFFECTS ASSESSMENT APPROACH.....	3-10
3.4.1	YESAA Requirements and Overall Approach for the Project Proposal	3-11
3.4.2	Existing Activities.....	3-12
3.4.3	Projects for which proposals have been submitted.....	3-13
3.4.4	Other proposed activities that are currently known.....	3-17
3.5	DETERMINING SIGNIFICANCE OF RESIDUAL ENVIRONMENTAL EFFECTS	3-18
3.5.1	Significance Determination Approach.....	3-18
3.5.2	Adverse Cumulative Environmental or Socio-Economic Effects	3-23
3.6	SOURCES OF INFORMATION.....	3-23

CHAPTER 4

4.0	FIRST NATIONS AND OTHER PUBLICS CONSULTATION	4-1
4.1	OVERVIEW	4-1
4.1.1	Rounds of Consultation	4-1
4.2	PRINCIPLES AND METHODS OF CONSULTATION	4-4
4.2.1	Guiding Principles	4-4
4.2.2	Consultation Methods	4-5
4.2.2.1	Face-to-face interactions	4-6
4.2.2.2	Electronic and Paper Communication	4-7
4.2.2.3	NTFN Self-Directed Consultation Activities	4-8
4.2.2.4	Connections to Consultation on the 20-Year Resource Plan	4-9
4.3	REVIEW OF PUBLIC INVOLVEMENT ACTIVITIES TO DATE	4-10
4.3.1	Round One	4-10
4.3.1.1	First Nations Consultation	4-10
4.3.1.2	Government Consultation	4-12
4.3.2	Round Two and Round Three	4-13
4.3.2.1	First Nation Consultation	4-14
4.3.2.2	Government Consultation	4-15
4.3.2.3	Other Publics Consultation	4-16
4.4	KEY ISSUES AND PERSPECTIVES HEARD TO DATE	4-17
4.4.1	Issues Related to Past Experiences with Transmission Projects	4-18
4.4.2	Issues Related to Project Route Selection and Environmental Assessment	4-18
4.4.2.1	Land and resource use	4-18
4.4.2.2	Potential Bio-physical Effects	4-19
4.4.2.3	Potential Socio-Economic Effects	4-19
4.4.2.4	Site-Specific Concerns	4-19
4.4.3	Issues Related to the Environmental Assessment Process	4-20
4.5	FIRST NATION AND OTHER PUBLICS INFLUENCE ON THE PROJECT	4-21
4.6	FUTURE STEPS IN PUBLIC CONSULTATION	4-23

CHAPTER 5

5.0	PROJECT DESCRIPTION	5-1
5.1	PROJECT IDENTIFICATION/SCOPE OF PROJECT	5-1
5.1.1	Principal Project	5-1
5.1.2	Activities of Other Projects	5-2
5.2	ALTERNATIVES AND CHOSEN APPROACH	5-3
5.2.1	Alternatives to the Project	5-3
5.2.1.1	35 kV line to Minto Mine:	5-3
5.2.1.2	Do not proceed with the Project or any other option:	5-4
5.2.2	Alternative Means of Carrying out the Project	5-4
5.2.3	Comparison and Selection of Alternatives	5-4
5.3	TECHNOLOGIES	5-4
5.4	PROJECT CONSTRUCTION STAGES AND SCHEDULING	5-5
5.4.1	Project Construction Schedule	5-5

5.4.1.1	Preparation and Line Construction Timing.....	5-8
5.4.1.2	Substation Construction Timing.....	5-9
5.4.1.3	Access and Transportation Timing.....	5-9
5.5	TRANSMISSION LINE PLANNING AND PRELIMINARY DESIGN.....	5-10
5.5.1	Line Length.....	5-11
5.5.2	ROW and Property Requirements.....	5-11
5.5.3	Structure and Conductor Design	5-12
5.5.4	Access and Transportation	5-15
5.6	SUB-STATION PLANNING & PRELIMINARY DESIGN	5-15
5.6.1	Station Concepts, Sites and Property Requirements.....	5-16
5.7	CONSTRUCTION PHASE.....	5-17
5.7.1	Transmission Line Construction.....	5-17
5.7.1.1	Survey and Clearing of ROW.....	5-17
5.7.1.2	Line Construction.....	5-19
5.7.2	Substation construction.....	5-21
5.7.2.1	Carmacks Substation.....	5-22
5.7.2.2	Pelly Crossing and Minto Landing Substations	5-23
5.7.2.3	Stewart Crossing Substation	5-24
5.7.3	Access and Transportation	5-25
5.7.3.1	Carmacks Substation.....	5-27
5.7.3.2	Pelly Substation.....	5-27
5.7.3.3	Minto Landing Substation	5-27
5.7.3.4	Stewart Crossing Substation	5-28
5.7.4	Fuel and Hazardous Material Management.....	5-28
5.8	WORK FORCE REQUIREMENTS (CONSTRUCTION PHASE)	5-28
5.8.1	ROW Flagging	5-29
5.8.2	ROW Preparation.....	5-29
5.8.3	Line Construction.....	5-30
5.8.4	Substation Construction	5-32
5.9	OPERATION AND MAINTENANCE PHASE.....	5-32
5.9.1	Inspection & Maintenance of Facilities	5-32
5.9.2	Operation work force requirements	5-33
5.9.3	Fuel and Hazardous Material Management	5-33
5.9.4	Project-related Effects.....	5-33
5.10	DECOMMISSIONING/ABANDONMENT/RECLAMATION PHASE.....	5-35
5.10.1	Decommissioning Transmission Towers/Poles	5-36
5.10.2	Decommissioning Transmission Rights-of-Way	5-36
5.10.3	Decommissioning Access Roads/Trails	5-37
5.10.4	Decommissioning Transmission Stream or River Crossings	5-37
5.10.5	Decommissioning Substations.....	5-37
 CHAPTER 6		
6.0	DESCRIPTION OF EXISTING ENVIRONMENTAL AND SOCIO-ECONOMIC CONDITIONS.....	6-1
6.1	APPROACH AND METHODOLOGY	6-1

6.2	ENVIRONMENTAL CONDITIONS	6-2
6.2.1	Physical Environment	6-4
6.2.1.1	General Physiography	6-5
6.2.1.2	Surficial Geology/Soils	6-7
6.2.1.3	Terrain Hazards	6-8
6.2.1.4	Climate and Air Quality	6-16
6.2.2	Terrestrial Environment	6-20
6.2.2.1	Vegetation	6-20
6.2.2.2	Historic Wildfires In Project Study Region	6-26
6.2.2.3	Wildlife	6-29
6.2.2.4	Other MS Route Study Area Wildlife	6-41
6.2.3	Aquatic Environment	6-41
6.2.3.1	Hydrology	6-42
6.2.3.2	Water Quality	6-44
6.2.3.3	Hydrogeology	6-45
6.2.3.4	Aquatic Ecosystems and Resources	6-45
6.3	SOCIO-ECONOMIC CONDITIONS	6-51
6.3.1	Overview of Project Study Region Communities	6-56
6.3.2	Resource Use	6-57
6.3.2.1	Traditional and Domestic Land and Resources Use	6-57
6.3.2.2	Commercial Land Use	6-69
6.3.3	Economy	6-77
6.3.3.1	Local Economy	6-77
6.3.3.2	Regional Economy	6-83
6.3.4	Social Context	6-87
6.3.4.1	Social Context Background	6-88
6.3.4.2	Community and Family Life	6-90
6.3.4.3	Community Infrastructure and Services	6-91
6.3.4.4	Public Health	6-93
6.3.4.5	Aesthetics	6-95
6.3.4.6	Heritage Resources	6-96
 CHAPTER 7		
7.0	EVALUATION OF ALTERNATIVE ROUTES	7-1
7.1	INTRODUCTION AND APPROACH	7-1
7.1.1	Routing Objectives, Constraints and Opportunities	7-2
7.2	DESCRIPTION AND COMPARISON OF ALTERNATIVE ROUTES	7-5
7.2.1	Overview of Key Elements to Route Selection Process	7-5
7.2.2	CS Line Segment 1: Carmacks to McGregor Creek	7-7
7.2.3	CS Line Segment 2: McGregor Creek to Pelly Crossing	7-15
7.2.4	CS Line Segment 3: Pelly Crossing to Stewart Crossing	7-31
7.2.5	Minto Spur Line Length: Minto Landing Substation to Mine Site	7-41
7.3	OVERVIEW OF PREFERRED ROUTES	7-52

CHAPTER 8

8.0	ENVIRONMENTAL AND SOCIO-ECONOMIC EFFECTS ASSESSMENT	8-1
8.1	OVERVIEW OF APPROACH	8-1
8.2	ENVIRONMENTAL EFFECTS AND MITIGATION	8-5
8.2.1	Physical Environment	8-7
8.2.1.1	Sensitive Terrain	8-7
8.2.1.2	Air Quality	8-10
8.2.2	Terrestrial Environment	8-11
8.2.2.1	Vegetation	8-11
8.2.2.2	Rare Plants	8-13
8.2.2.3	Mammals	8-14
8.2.2.4	Mule Deer	8-16
8.2.2.5	Moose	8-17
8.2.2.6	Ethel Lake Woodland Caribou Herd	8-18
8.2.2.7	Tatchun Woodland Caribou Herd	8-19
8.2.2.8	Small Furbearing Mammals	8-20
8.2.2.9	Birds	8-21
8.2.3	Aquatic Environment	8-23
8.2.3.1	Riparian Zones and Wetlands	8-23
8.2.3.2	Salmon and other Fish Species	8-24
8.3	SOCIO-ECONOMIC EFFECTS AND MITIGATION	8-25
8.3.1	Resource Use	8-28
8.3.1.1	Traditional and Domestic Land and Resource Use	8-28
8.3.1.2	Commercial Land Use	8-34
8.3.2	Economy	8-37
8.3.2.1	Local Economy	8-38
8.3.2.2	Regional Economy	8-40
8.3.3	Social Context	8-43
8.3.3.1	Community and Family Life	8-44
8.3.3.2	Community Infrastructure and Services	8-45
8.3.3.3	Public Health	8-45
8.3.3.4	Aesthetics	8-45
8.3.3.5	Heritage Resources	8-46
8.4	OTHER EFFECTS	8-48
8.4.1	Effects of the Environment on the Project	8-48
8.4.2	Accidents and Malfunctions	8-49
8.5	RESIDUAL EFFECTS AND DETERMINATION OF SIGNIFICANCE	8-50
8.5.1	Environmental Residual Effects	8-52
8.5.1.1	Physical Environment	8-52
8.5.1.2	Terrestrial Environment	8-54
8.5.1.3	Aquatic Environment	8-58
8.5.2	Socio-Economic Residual Effects	8-60
8.5.2.1	Resource Use	8-60
8.5.2.2	Economy	8-64

8.5.2.3	Social Context	8-66
8.6	ENVIRONMENTAL PROTECTION AND MONITORING.....	8-68
8.6.1	EPP and Monitoring Approach.....	8-69
8.6.2	EPP and Monitoring Plans.....	8-69
8.6.2.1	Compliance Monitoring.....	8-69
8.6.2.2	Environmental Effects Monitoring.....	8-70
CHAPTER 9		
9.0	ACKNOWLEDGEMENT AND CERTIFICATION.....	9-1
CHAPTER 10		
10.1	GLOSSARY OF ACRONYMS AND TERMS	10-1
10.1.1.	LIST OF ACRONYMS	10-1
10.1.2.	LIST OF TERMS.....	10-3
10.2	REFERENCES	10-26
10.2.1	Printed Materials	10-26
10.2.2	Maps	10-31
10.2.3	Electronic source references	10-32
10.2.4	Personal Communications.....	10-36

LIST OF TABLES

CHAPTER 1
Table 1.5-1 Regulatory Permits and Approvals Required for the Project 1-8

CHAPTER 2
Table 2.3-1 Project Substation UTM and Latitude/Longitude Coordinates 2-4
Table 2.5-1 Settlement Lands Crossed or Adjacent to the Project Site Area 2-7
Table 2.7-1 Land Use and Management Plans that Relate to the Project 2-9

CHAPTER 3
Table 3.4-1 Other Projects Considered for Cumulative Effects – Projects with proposals submitted to YESAB 3-14

CHAPTER 4
Table 4.3-1 Summary of Round One Consultation Meetings with First Nations 4-10
Table 4.3-2 Round One Consultation Meetings with Government Departments 4-13
Table 4.3-3 Round Two and Round Three Consultation Meetings with First Nations 4-14
Table 4.3-4 Round Two/Three Consultation Meetings with Government Departments 4-16
Table 4.3-5 Round Two/Three Consultation Meetings with Other Publics..... 4-17
