Packing for Lime Creek

Trip

- boat gas

- phoned Saunders, file logs

June 10/97 Lime Creek

B.B. BH

- ①
- drove to Taggart Pt
 - set traps at cabin.
 - packed boat and camp
 - to Lime Creek
 - set up camp at
 - confluence of creek on
 - lake shore
 - took down lake up
 - around Lime Lake.

June 11/97 Lime Creek

BB. BH

- ②
- picked up north side of
 - lake toward the southern
 - peaks of Lime Mtn to
 - try to get a look around,
 - silt sampled creek
 - down into Lime Lake.
 - seems to be contact of
 - sediment and volcanics
 - north of creek.
 - pyrite and chalcocyanite
 - in limonitic gravel
 - etc. seen up 15 ft.

Lim Ch. Jun 12/91 BB BN

Traversed about 1/2 mi. creek valley checking old blast trenches and trying to figure out where old drill holes were in relation to the creek and other geographic features.

- many blast trenches were covered with thinning and had spots of moly and finely disseminated "chatterbox" - most moly seems to be associated w/ quartz veins - granitic

3

Jun 13/91 BB BN

- Took two lines of soil samples down each side of Lim creek.
- old grid seems to be along this creek - maybe will get some gold remnants along with Cu & moly.

4

June 14/91 Lin Co. BBRH

Traversed along main valley
thru Striker Pass
to see if cube is at
Striker lake is in good
shape - needs work and
widened but is not
bad shape
- lake is big enough
for a flat plain -
Some rocks at west end.
- more old pits and
tranches on both sides
- old shaft near cube??

back late

June 15/91 Lin Co. BBRH

prospected along the side
of Escarpment from
to Copper Gulch to
see if it is the site
of reported old site
of chalcopirite.
- No See um

- Very steep face - dangerous

June 6/91 Lone Ck BA BH

- Packed supplies to street
- Windy day
- packed up camp
- box used for motor in boat - big motor
- did had to go home on folding motor
- bring fishing rods next time

7

July 6/91 C.C. BH + AW

- Drive to Canyon Ck w/ A. Wedman
- in historic
- camp demolished
- 14 x 16 down
- windows smashed out of Mr.
- got oil stove working -
- cleaned up kitchen & etc
- enough to live in

8

July 7/91 Bow Ck B.V. AW

- Prospecting up Bow creek
right limit looks look up
upstream - left limit
is land claimed.
- 1st creek - some colour.
- valley gets really
narrow so no room to
mine even though gold
- abandoned that one
- drove up to next creek.
- walked up old Revere
Ck trail which is on
right limit of creek
took a few pans where
cut had crossed creek
9-20 colours per pan
- old placer pit dug
with cat or hoe farther
up creek.

9

July 8/91

- went back up 2nd pang
w/ pans + dredge as usual.
- 1st dredge up on bank
above cut out and
ran about 2 yds of
material
- runs \$10-⁵/₁₃/yd
but → where bedrock
- pit is approx
50 x 200 with varying
depths to 20' feet.
- went farther up creek -
it opens up.
- kept panning as we went
up - gold right under
roots in black mud -
found gold but good to see.
- road seems to go up about
3/4 mile - pretty
rough in places but
not impossible to fix.
- saw crosscut in place so
we panned those (5' colours)

10

July 9/91

- passed below cut on Kelso,
ok.

- staked subs. ok.

Co-Discoverer w/Al
Wideman

July 10/91

- Back to town

- took in Kirk Yardley's
gold wheel. Si 1? doesn't
get stoken.

Bonnett Lake - Old Lady
Lake
July 16/91 G.D., G.W., B.H., G.D.

- On Ona begin with
Nojauke - Geraint Water??
G.D. Mackay; Graham Davidson.

- packed up Camp,
sampled and proceeded
going down escarpment
to Bonnett Lake.

- Several new quartz
veins on face near
Goat Bluff.

- Found good looking
fairly wide vein lower
hill side - strike extension
of Gridiron adit?? I hope

- G.D., G.W. and G.M. found
some vein approx 1 km
away and followed it up
till they met the

- pitches + swells but
good exposure in neck
cuts

- picked up on lake shore
then back up for car

- dropped off Noranda
guys at truck -
- drove down road
nearer to Windy Arm
- Norm Graham gave
us a free chopper
ride into Old Lady
Lake.
- set up camp.

July 17

- walked up to old camp
site - rock tent frames.
- old stove & etc.
- one good fuel barrel
- shovel picks etc.
- some water available
but could be high
octane with all
the lead and arsenic around.
- prospected lower adit
- checked old camp for
bullshit piles
- Dug out entrance to lower
adit - lots of snow -
not enough ice - full of water.
- carried logs for walking from
camp - neat old stuff back in
adit.
- walkway to pre-carnous Pt -
detailed sampling - got some
grab samples + wet feet
7:00 feet back

July 18/91. Old Lady lake
G.D. B.H.

- Traversed up to middle adit
- dug out entrance to middle adit
- sampled sp. above adit
isn't about two feet
wide - lots of arseno-
pyrite so should
run 1+ m. and
good silver
- adit 10 metres deep
and fairly dry

July 19/91. Old Lady lake B.G.D.

- Went up to upper
zone and found another
short adit and a lot
of sharp trenches.
- near old wooden bucket
in adit. Full of ice.
- Sampled trenches and
adit.
- continued up slope
through talus boulders
checking for float trains
of quartz etc. - no go
- traverse north along edge
checking for trenches etc.
- G.D. down ridge checking
for extensions of horizon
which hosted adits
- I prospected around this
and end found sp. and
trenches on end overlooking
Rauhorn creek
- prospected back around edge
of cliff. talus in front but
too steep to prospect safely.

July 20/92. 6 P. B.H. ^{old} lady lake

- Went around west side of
Old Lady Lake prospecting
ridge + valley out.

- nice glacial washers
and subchert but
flat only - couldn't find
it in place.

- trenched w/ picks
in valley bottom near
flat train - no go
- walked out to highway
along ridge then down
logging trails around
windy farm

- lots of game - only
one bear but lots
of moose and caribou
signs.

- beaver dam is
flooded out so they've
moved; - a very nice trip.

July 21/92. White

- Recorded Dewey + Kelley claim.

- Al Wedman re: Apeal Resources.

- meet Gernot for Drinker
Daker 5:00.

July 23/92

Granite Mtn

OR J.S.
G.H. G.H.

- Drove to Granite Mtn w/ 4 wheelers
- Graham Davidson - Dad
- Joe Suits in ahead.
- William Creek equip sent still by road. Cat r hoe + Fuel for drill.
- Set up camp in old Silver Task Camp.
- Checked out road access w/ 4 wheelers.

July 24/92

Granite Mtn

- Toured Silver Task prop and adit entrance to see what they were after before looking for similar mineralization on Granite Mtn.
- No massive mineralization visible in road cuts or trenches we could access w/ 4 wheelers, so checking for ptz veins and porphyry style mineralization instead.

July 25/68 Granite Mtn. Q-DJ-S
6th St.

- sampling cat trenches
- trying to tie in trenching
and drill sites to map
and geochron map. of
old Canex. Aerial work.
- Staked Lead 61-70.

July 26/68 to C. Creek Camp. C.D.
B.H.

- moved to Caribou Cr. camp.
- looked for ope near old
Cornico tungsten anomaly
near Big Creek.
- Staked Trails 7-9,
Staked West - B.H.

July 27/91

Cibola

B.H.
G.V.

- prospected area in creek valley near Kappy Clams
- Stated Kappy 9110
- no. 910 but anomaly
- drove back to Granite Mtn to see how Bob + Dad making out.
- Stated 9-24 Leach
- took 4-wheeler down road toward Stoddart. -
- old smashed ~~car~~ trailer
- Wilsons - no good.
- road washed out.

July 28/91

- prospected far side of Leach property - some copper stain - minor azurite and malachite.

July 27/92 Granite Mtn

J.S.G. D

B.H. Q.H.

- prospected past newest
S. tree Task drilling on
Dad's Ad. Extension

w/ Graham - Dead
Granite, No Bo.

- Drove to Caracas to meet Trevor
from Helodynamics with Brian.
- flew to strike & lake
- dropped off by Cabin.
- traversed back down to
Lake shore (w. rdly Arm)
- checking creek cuts on
Southwest side for o/c
- collected more samples
and got tea lake for
pickup.

04

Aug 5/91

- phone & study

- Terry Boykin

- Ken Price

- Gear up for Clan + Pen
Clain & Job w/
Geoff Ruschert

- dinner - Danna

Aug 8/91

Mayo

- To Mayo - in Sabbath Ch.
w/ camper

- Sightseeing

25

- Aug 9/91 Mayo

- checked out operations on
Sabbath and Johnson Ch.

- took a few pans up schelien
gully and "Savage" Gulch

- panned around on the
CP Sabbath + Johnson Ch.

- went up Johnson a bit on
cat trail

- pans getting better on
Johnson further up

26

Aug 9/92

Mayo

- Took 4 wheeler up Johnson
W suction dredge on
cat trail.
- panned as I went up till
I got > 10 colours to a pan
Then dug a hole and
used the dredge.
- moved about 1/2 yard of material
per spot - 4 different
areas up Johnson Ck.
- 1st spot < 0.2 gram/pan
- 2nd spot 1.3 → .4 gram/pan
- 3rd spot .4 gram/pan
- 4th spot < 0.2 gram/pan

3rd spot just below Nugget
Gulch

- feeder??

Aug 10/92

Mayo

- took 4 wheeler back up
Johnson as far as I could.
- then went panning
up Nugget Gulch.
- best pan 25 colours - 1 chink
avg - 9 colours/pan

Aug 18/97 Mayo

- Took 4-wheeler over the top to the EPD property on Oliver Ck
- Checked trenches + Drill sites
- Camp rough - out house + Core shack is left - not much else. Core shack in good shape.
- Core looks good - some obvious Cu mineralization as well as pyrite and Tungsten or Tin ???
- Galena + Chalcopyrite because samples lagging around old pits
- more and better mineralization in trenches up west of creek.
- Watch it!

Sept 1/91 Mayo

- serviced 4-wheeler.
- gassed up and drove to Mayo with camper

30

Sept 2/97 Mayo (Lynx Ck)

- Drove to Haggard Ck. then up to Dublin Gulch but 4-wheeler into Iron Horse Ck. - too many trees down and not clearway.
- hiked up as far as old cabin prospecting old cut cuts and spots where road crosses creek.
- cabin is in rough shape.
- not much colour at bottom of creek but up to 18 colours per 500 ft up, (V. mil)

Sept 3/92 Mays

- took suction dredge up into
d for knot and mined
about 2 yds of material
in 2 spots
- lower @ \$1/yd
- upper @ 1.375/yd

visited Fred Holman
for a few hours,
still have lots of ground.

32

Sept 4/92 Mays

- Staking for Gordon
Clark.
West Claims

Sept 11/92 Dawson

BP
B/H

- Ted Dawson w Graham
Davidson to visit
Kirk Yardley and
Stella Melanson at
Triple J. Motel
for the night.
- Checked Mining Recorder
Melanson Staked.
- Gold Bottom Gold is it.

33

Sept 12/92

Pawson

G.D
B.H

- Went in talked to Hardley.
- he has no knowledge of
Culch being open -
will test next year.
- Staked Gold Bottom
Culch with Graham
and Kirk's crew.
- 1 mile leases.
- 2 Co-Disc - 6 claims.

Sept 13/92

Pawson

- Prospecting Gold
Bottom Culch.
- panned in old Cat
cuts
- reopened one old shaft
partway down -
good colour in walls.
- Found old stave box
by Y in the creek.
- looks like creek was
only hand mined then
held as a water
supply by Wankart
for his operation on
Gold Bottom OK.

Sept 14/91 Dawson ^{GD} B.H.

Talked to Tom Morgan +
Red Haines about other
cks open in area.

- They mentioned
Canyon Ck - a trib
to Quartz Ck

- Next to little Blanche
could be good.

- panned all the way up
about 1 mile

- not good enough but
maybe a deep one.
check more later.

36

Sept 15/92 Dawson ^{GD} B.H.

Back for a few
seconds gloves.

42

Sept 19/91 Ham Jet ^{GD} B.H.

- Drove to H.J.

- stayed w/ Dave Tomlin

- checked out Refinery

for size of meters
left there.

43

Sept 20/92

H.J.

G.D.
W.H.

- Probe into Kimberley Ck
- talked to Claire Sanger.
- his best year ever.
- checked out the fine
operation - Hoe +
Hornet - all inside.
- got chased by Grizzly
Sow and cub - came
within 15 metres of
us, neither roger
no fun.
- panned in Kim's pit
- panned all along
creek in old pits and
above and below smaller
drainages going up.
- bitter cold day with
howling wind.
- spotty gold and
lots of water.
- Back to Jet

37

Sept 21/92

H.J. B.H.

G.D.

- To Ellen Creek.
- checked out camp.
- Bears around -
chewed up plastic
and knocked open
door - ate gas can.
- panned gravel through
canyon at Ellen Claims.
- very fine down in stream
into bottom of canyon then
almost nothing further
up.
- better values again
up where orientation
of creek changes to
a westerly flow.
- This could be an old
channel running thru
to Jarvis over which
is now downcutting
in a different direction
because of faulting.
- The old channel

38

- may have run straight
 they and entered
 the Jayvis river
 from the same direction
 as Kimberley Ck. -
 an active place
 continued farther up
 the creek
 - panning and prospecting
 for a continuation of
 the mineralization on
 the Elker claims
 - lots of copper rich
 float but nothing in
 place - could be hidden
 under talus or
~~copper rich float~~
 glacial till.
 - ~~Home~~
 - Back to town

Oct 4/91 Mayo

B.B.

B.H.

- To Mayo w/ Brian
- in his cages
- Checked Mayo.

Oct 5/91

Mayo BB
BH

- drove into Haggart Ck. area.
- panned up Lynx Ck as we went up Haggart Rd.
- got much color till right below Haggart Ck.
- continued on up Lynx Ck panning but not much luck - local concentration by Haggart
- went up Haggart Ck - not over color till we got into the cat trenches way up - too steep now water.

- hiked across to Snowshoe
Ck and traversed up
it. No colour in the
pans but a nice
gleam showing about
a mile up on the
North side - sampled
it and checked out
trenches and old
camp.

Oct 6/91

B.H.
Maya 58

- checked out other branch
of Iron Point Ck.
- no Cat trail up it.
- no pits or shafts and
no colour to speak of.
- deep wide valley.

- Bear Back to town
- I stayed for stake for
C. Clark
