

File: README.PDF

Digital data files containing recorded field observations and analytical data are provided in Excel (XLS) format. The file **GLENLYON DATA.xls (1461 records)** is set up as follows:

- TAB 1: Original field data
- TAB 2: Original sediment data
- TAB 3: Original water data
- TAB 4: ICP-MS sediment data
- TAB 5: notes on header abbreviations

Notes:

- Original survey data are provided as initially published.
- ICP-MS data reported at levels below detection limit are listed with a '-!'
- Missing data is listed as blank.

Funding for this project was provided by the Canadian Northern Economic Development Agency (CanNor) through their Strategic Investments in Northern Economic Development initiative. The Geological Survey of Canada provided access to the previously collected samples and allowed for their re-analysis.

***Disclaimer:** While every effort has been taken to ensure the accuracy of the information in this release package, the data is provided in an 'as-is' basis, without any warranty, guarantee or representation of any kind, whether expressed or implied. It is the responsibility of the user to check the facts before entering any financial or other commitment based upon this information.*

Considerable effort has been taken to ensure that the data files are free of error.
