Data disclaimer:

TH land Use mapping is representative of present-day indigenous land use, which is dynamic, not static, and thereby may change in the future. These data consists of information from ~50 individual TH knowledge bearers gathered in 2012 and 2018/19. This dataset is intended as a representative sample of TH community land use. It does not weight importance of areas nor does it confer TH conservation interests. These land uses are not necessarily representative of future land use intentions, on an individual or Nation scale.

This map is a graphical representation, which depicts the approximate size, configuration and spatial relationship of known geographic features.
